

Business partner verification checklist

Security package TimoCom Secure - protection against cargo theft and fraud

TimoCom's task:

- TimoCom checks all necessary documents of new customers before they can enter the freight exchange (e.g. six months company existence, industry affiliation).
- TimoCom enables access to the system only with the security software TC Login.

Your task:

- Ensure that the TimoCom ID (equals customer number) and the entered contact details from your business partner's transport order correspond to the data in TC Profile®.
- To be sure that the planner uses TC Truck & Cargo®, ask for an e-mail to be sent to you from the respective offer.
- Please follow the TimoCom Secure security advice on the website.
- Are you still unsure about anything or have doubts regarding your new business partner's integrity? If so, contact our special TimoCom Assist hotline about anything related to security on **+49 211 88 26 88 26!**
